

## 12th Alpe-Adria Diagnostic Cytology Symposium

This seminar and workshop are designed for veterinary practitioners with some basic knowledge in diagnostic cytology who strive to expand their skills in this diagnostic field.

The main topics of this 11 hours symposium will be the cytologic evaluation of neoplastic and inflammatory skin lesions, of lymphoproliferative diseases, of mediastinal masses as well as of liver diseases of the dog and the cat.

Lectures and video-microscopy will be the skills of this symposium to illustrate general principles of cytology and to go together through interesting practical cases.

**The scanned slides of the practical cases will be provided online to the participants prior to the symposium.**

*The lectures are held in English.*

*The registration is limited to 50 participants.*
